In the mood of the « **Party Ruiners** » vol.1 & 2 compilations, «**Ego Twister Movie Ruiners**» is the new free music project from Ego Twister records. For this one, we asked 33 artists to reinvent an original movie soundtrack. To make the exercise a little more exciting, we asked them to avoid the use of any sample extracted from the original tracks, as we wanted them to produce real covers, instead of remixes.

The result is an incredible musical maelstrom, where banjos mutate into 8bit synthesizers, keyboards into guitars, and American rappers into French singers...

We hope you will love this new release as much as we enjoyed making it. Please share it as much as you can !
